KOJO Worldwide Adds New In-Room Drapery Cleaning Service

SAN DIEGO - March 2003. KOJO Worldwide, a leading manufacturer of hotel bedcovers and draperies, is pleased to announce our new In-Room Drapery Cleaning Service and Maintenance Program. This service will extend the longevity and beauty to KOJO supplied draperies. Combined with our fabric treatments, we provide a safer, cleaner and healthier environment for your hotel guests.

Our skillfully trained technicians will carefully remove all layers of the drapery treatment including face, lining, blackout and sheers, and thoroughly clean each piece inside each room, with our portable state-of-the-art equipment.

The maintenance program integrated with this service includes inspection and repair of the complete drapery operating system. KOJO technicians will check for wear and tear of all components, and perform needed repairs to the drapery operating system, including hardware, attachments, lubrication, light seals, glides, batons and even pin hooks, at no additional charge for parts or labor. Once repairs are complete, the KOJO team will re-hang the cleaned drapes, wrinkled free, to look like new.

Great hospitality companies value easy, affordable maintenance of their draperies and KOJO Worldwide provides the best value. By providing this service onsite, KOJO eliminates lost room revenue. A healthy and safe guest environment will increase revenue, and is another example of the KOJO's commitment to add value to the hotel industry.
