

A New Innovation for the Hospitality Industry The Sheet Duvet Designed by Koni for Your Guest's Comfort

The Sheet Duvet combines the comfort and beauty of a duvet with the functionality of traditional triple sheeting

- Available with a variety of custom decorative details and Teflon Guard.
- Guests sleep in unbound comfort because the Sheet Duvet does not need to be tucked.
- Guests no longer wake up wrapped in unsanitary blankets when the triple sheeting comes apart during an active night's sleep.
- Elegant enough to use as a top-of-the-bed treatment.

Elegant enough for top-of-the-bed

In addition to the comfort and health your guests will experience, the Sheet Duvet is simple to maintain, easy to assemble and requires no tucking.

- Independent testing has shown that using the Sheet Duvet in place of triple sheeting can cut bed-making time by half. This reduces costs by improving housekeeping staff efficiency.
