Designs by Koni Introduces the Luxurious Sheet Duvet at IHMRS 2003

SAN DIEGO__October 7, 2003. KOJO Worldwide, a leading provider of custom bed coverings and draperies for hotels, announces the Sheet Duvet, a new Designs by Koni product for KOJO. This bedding innovation provides a luxurious alternative to the triple sheeting currently used in many upscale hotels and resorts. The Sheet Duvet combines the comfort and beauty of a duvet with the functionality of traditional triple sheets. The Sheet Duvet, available with a variety of custom decorative details, is elegant enough to use as a top-of-the-bed treatment. This new concept in bedding will be unveiled to the hospitality industry at the International Hotel / Motel & Restaurant Show, Booth #4020, November 8, 2003 at the Jacob Javits Center, in New York City.

In addition to the comfort your guests will experience, the Sheet Duvet is simple to maintain, easy to assemble, and requires no tucking. Independent testing has shown that using the Sheet Duvet in place of triple sheets can cut bed making time by half, which will reduce costs by improving housekeeping staff efficiency.

Leading hospitality companies value innovations that improve product quality and save money. This new Sheet Duvet from Designs by Koni is another example of how KOJO's leadership in the soft goods industry continues to add value to the success of its partners.

KOJO Worldwide, headquartered in San Diego, California, has been servicing the hospitality industry for over 28 years—from concept to completion.
